

July 9 -- Picnic in the Park

This year's summer Picnic in the Park activities are centered around a Western theme. So put on your cowboy duds and come on down to the Rees Bowery for some old fashioned fun. We will have face painting again this year. The fun begins about 10:45. Lunch donations still apply.

July 30 -- Center Celebrating “Green Acres” Day

Do you remember the TV sitcom *Green Acres* that ran from 1965-1971? Join us on Friday, July 30, at 11:00 a.m. for fun and games centered around this theme. You can dress up to the nines like Lisa and enter the Park Avenue fashion show, or dress like Oliver the gentleman farmer.

Tune up your voices for “hog callin’,” and practice the Green Acres theme song. You will also want to watch for Arnold the Pig balloon and choose a date that you think he will float down from the ceiling. And just how many pickles are there in the pickle jar? Guess right and they're all yours. Hone your checker strategy skills. This is the week for everything farm and city related. Get ready for a good time.

August 2 -- Energy Solutions FREE TRIP

Energy Solutions is sponsoring a free trip with box lunch included to tour their facility in Clive, UT, west of Toole.

Energy Solutions is a world leader in the safe disposal of nuclear material and has an unparalleled safety record. The Clive site is a Class A low-level only facility.

The tour will answer many of your questions and give you the opportunity to see the facility first hand. The bus will depart from the Center and return about 4 p.m. Please sign up early to ensure your seat for the trip.

August 19; Details to Follow; FrontRunner to the Gateway Center & Clark Planetarium IMAX Hubble 3D

We have planned this excursion to give you the experience of traveling on the FrontRunner, and seeing one of the greatest 3D films of all time. This film recounts the amazing journey of the most important scientific instrument since Galileo's original telescope and the greatest success in space since the Moon Landing — the Hubble Space Telescope. You will see the cosmos as never before. This is a “must see” film.
